¹ Non-tariff measures related to sanitary and phytosanitary measures and technical barriers to trade are addressed in Chapters 5 (Sanitary and Phytosanitary Measures) and 6 (Technical Barriers to Trade) respectively and therefore they shall not be subject to the provisions of this Section. - (b) requiring as a condition for exporting the good of the Party to the territory of the other Party, that the good not be re-exported to the non-Party, directly or indirectly, without being consumed in the territory of the other Party.

5. In the event that a Party adopts or maintains a prohibition or restriction on the importation of a good from a non-Party, the Parties, on the request of either Party, shall consult with a view to avoiding undue interference with or distortion of pricing, marketing, or distribution arrangements in the territory of the other Party.

6. Neither Party may, as a condition for engaging in importation or for the importation of a good, require a person of the other Party to establish or maintain a contractual or other relationship with a distributor in its territory.

² For the purposes of paragraph 1 and for greater certainty, in determining whether a measure is inconsistent with the Import Licensing Agreement, the Parties shall apply the definition of “import licensing” contained in that Agreement.

Article 2.10: Administrative Fees and Formalities

1. Packing materials and containers used for the transport of goods shall not be taken into account in determining the origin of the goods.

However, if the good is subject to a regional value content requirement, the value of the packaging materials and containers used for retail sale shall be taken into account as originating materials or non-originating materials as the case may be when determining the origin of the good.

Article 3.13: Accessories, Spare Parts and Tools

1. Accessories, spare parts, or tools delivered and presented with the good at the time of importation shall be disregarded when determining the origin of the good, provided that:

In the case where the goods are temporarily stored in a Non-Party as provided in this paragraph, the goods shall remain under control of the customs authorities in that Non-Party during its stay. The stay of the goods in that Non-Party shall not exceed three months from the date of their entry. In the case of force majeure, the stay of the goods in that Non-Party may exceed three months but shall not exceed six months from the date of their entry.

3. For the purpose of paragraph 2 of this Article, the following documents shall be submitted to the customs authority of the importing Party upon import declaration of the goods:

³ If all the information of a Certificate of Origin is exchanged between the customs authority of each Party through Article 3.27 (Electronic Origin Data Exchange System), the customs authority of each Party may not require the importer to submit the Certificate of Origin on importation. Nevertheless, the customs authority of each Party reserves the right to require the importer to submit the Certificate of Origin, when it deems necessary. Article 4.1: Definitions

For the purposes of this Chapter:

customs law means the statutory and regulatory provisions relating to the importation, exportation, movement or storage of goods, the administration and enforcement of which are specifically charged to the customs authorities, and any regulations made by customs authorities, under their statutory powers;

customs procedures means the treatment applied by each customs authorities to goods and means of transport that are subject to customs law; and

means of transport means various types of vessels, vehicles, aircraft and pack-animals which enter or leave the territory of a Party carrying persons, goods or articles.

Article 4.2: Scope and Objectives

1. This Chapter shall apply, in accordance with the Parties' respective international obligations and domestic customs law, to customs procedures applied to goods traded between the Parties and to the movement of means of transport between the Parties.

2. The objectives of this Chapter are to:

- (a) simplify and harmonize customs procedures of the Parties;
- (b) facilitate trade between the Parties; and
- (c) promote cooperation between the customs authorities, within the scope of this Chapter.

Article 4.3: Facilitation

1. Each Party shall ensure that its customs procedures and practices are predictable, consistent, and transparent to facilitate trade.

2. Customs procedures of each Party shall, where possible and to the extent permitted by its respective customs law, conform with the trade-related instruments of the World Customs Organization (WCO) to which that Party is a contracting party, including those of the *International Convention on the Simplification and Harmonization of Customs Procedures*, as amended, known as the Revised Kyoto Convention.

3. The customs authorities shall facilitate the clearance, including release of goods in administering their procedures.

4. Each Party shall endeavor to provide a focal point, electronic or otherwise, through which its traders may submit all required regulatory information in order to obtain clearance, including release of goods.

Article 4.4: Consistency

Each Party shall ensure, to the extent possible, consistent implementation of its customs laws and regulations nationwide, and endeavour to deter inconsistent matters that may arise in the implementation process of the laws and regulations among its regional customs offices by establishing and taking proper measures.

Article 4.5: Transparency

1. Each Party shall ensure that its customs and other trade-related laws, regulations, general administrative procedures and other requirements, including fees and charges, are readily available to all interested parties, via an officially designated medium including official website. Each customs authority shall publish all customs laws and any administrative procedures it applies or enforces, via an officially designated medium including official website.

2. Each customs authority shall designate or maintain one or more enquiry points to deal with inquiries from interested persons from either Party on customs matters arising from the implementation of this Agreement, and make available on the official website information concerning the procedures for making such inquiries.

3. To the extent possible, each customs authority shall publish in advance any new or amended regulations of general application governing customs matters that it proposes to adopt and shall provide interested persons with the opportunity to comment before adopting them.

4. Each customs authority shall provide the other customs authority with timely notice of any significant modification of customs laws or procedures governing the movement of goods and means of transport that is likely to substantially affect the operation of this Chapter.

Article 4.6: Customs Valuation

2. To the extent permitted by their domestic laws, the customs authorities shall assist each other, in relation to:

- (a) the implementation and operation of this Chapter; and
- (b) such other issues as the Parties mutually determine.

Article 4.9: Review and Appeal

1. Each Party shall, in accordance with its domestic laws and regulations, provide that the importer, exporter or any other person affected by its determinations, have access to:

- (a) a level of administrative review of determinations by its customs authorities independent of the official or office responsible for the determinations under review; and
- (b) judicial review of the administrative determinations subject to its laws and regulations.

2. A producer or exporter may provide, on the request of the reviewing authority, information directly to the Party conducting the administrative review, and may request such Party to treat that information as confidential in accordance with the rules applicable in that Party. This information shall be provided in accordance with the rules determined by the Parties.

Article 4.10: Advance Rulings

1. The customs authority of each Party shall issue written advance rulings prior to the importation of a good into its territory on the written request of an importer, an exporter, or

any other applicant in the territory of that Party¹, on the basis of the facts and circumstances provided by the requester, including a detailed description of the information required to process a request for an advance ruling. The advance ruling may be issued on the following matters:

- (a) tariff classification;
- (b) origin of a good in accordance with this Agreement; and
- (c) such other matters as the Parties may agree.

2. The customs authority shall issue an advance ruling within 90 days after a request, provided that the requester has submitted all information required under the domestic laws, regulations and rules. The advance ruling shall be in force from its date of issuance, provided that the facts or circumstances on which the ruling is based remain unchanged.

3. The advance rulings that are into force may be annulled, amended or revoked:

- (a) where the facts or circumstances prove that the information on which the advance ruling is based is false or inaccurate. In these cases, the customs authority may apply appropriate measures to the requester, including civil, criminal and administrative actions, penalties or other sanctions in accordance with its domestic laws;
- (b) where the customs authorities deem appropriate to apply different criteria due to the obvious error made by customs authorities on the same facts and circumstances of the original advance rulings. In this case, the amendment or revocation shall be applied from the date of the change; or
- (c) when the administrative decisions are affected due to changes in the laws, regulations and rules that served as basis. In these cases, the advance rulings shall automatically cease to be in force from the date of publication of those changes.

In the cases mentioned in subparagraph (c), the customs authority shall make available to interested persons the information reviewed, with sufficient time prior to the date on which the amendments enter into force, so they can take them into account, with the exception of the cases where it is impossible to publish in advance.

4. Each Party shall publish its advance rulings subject to any confidentiality requirements in its laws, regulations and rules.

5. A Party may decline to issue an advance ruling if the facts or circumstances forming the basis of the advance ruling are the subject of administrative or judicial review.

¹ For China, the applicant for an advance ruling must be registered with China customs.

Article 4.11: Penalties

Each Party shall adopt or maintain measures that allow for the imposition of administrative penalties and, where appropriate, criminal sanctions for violations of its customs laws and regulations, including those governing tariff classification, customs valuation, country of origin, and claims for preferential tariff treatment under this Agreement.

Article 4.14: Release of Goods

1. Each Party shall adopt and apply simplified customs procedures for the efficient release of goods in order to facilitate trade between the Parties. For greater certainty, this paragraph shall not require a Party to release goods where its requirements for release have not been met.
2. Pursuant to paragraph 1, each Party shall adopt or maintain procedures that:
 - (a) provide for advance electronic submission and processing of information before the physical arrival of goods subject to the satisfaction of certain conditions or requirements, to enable the release of goods on arrival to the extent possible;
 - (b) may allow importers to obtain the release of goods prior to meeting all import requirements of that Party if the importer provides sufficient and effective guarantees and where it is decided that neither further examination, physical inspection nor any other submission is required;
 - (c) provide for the release of goods within a period no greater than that required

to ensure compliance with its customs and other trade-related laws and formalities and to the extent possible, within 48 hours of the goods' arrival; and

Article 4.17: Confidentiality

1. Any violation of the confidentiality shall be treated in accordance with the legislation of each Party.

Such consultations shall be conducted through the relevant contact points in confirmation of the receipt of request within 10 working days from the date of receipt by the requested Party and shall take place within 60 days of the request, unless the customs authorities of the Parties mutually determine otherwise.

2. In the event that such consultations fail to resolve any such matter, the requesting Party may refer the matter to the Committee on Customs referred to in Article 4.19 for consideration.

3. Each customs authority shall designate one or more contact points for the purposes of this Chapter and provide details of such contact points to the other Party. Customs authorities of the Parties shall notify each other promptly of any amendments to the details of their contact points.

TRADE REMEDIES

Section A: Safeguard Measures

If, as a result of the reduction or elimination of a customs duty under this Agreement, an originating good of the other Party is being imported into the territory of a Party in such increased quantities, in absolute terms or relative to domestic production, and under such conditions as to cause or threaten to cause serious injury to the domestic industry that produces like or directly competitive goods, the Party may:

- (a) suspend the further reduction of any rate of customs duty on the good provided for under this Agreement; or
- (b) increase the rate of customs duty on the good to a level not to exceed the lesser of:
 - (i) the most-favored-nation (MFN) applied rate of duty on the good in effect on the date on which the safeguard measure is applied; and
 - (ii) the base rate of customs duty specified in the Schedules included in Annex 2-A (Reduction or Elimination of Customs Duties) pursuant to Article 2.4 (Reduction or Elimination of Customs Duties).

Article 7.2: Conditions and Limitations

1. A Party shall notify the other Party in writing on initiation of an investigation described in paragraph 2 and shall consult with the other Party as far in advance of applying a safeguard measure as practicable, with a view to reviewing the information arising from the investigation and exchanging views on the measure.

2. A Party shall apply a safeguard measure only following an investigation by the Party's competent authorities in accordance with Articles 3 and 4.2(c) of the Safeguards Agreement, and to this end, Articles 3 and 4.2(c) of the Safeguards Agreement are incorporated into and made part of this Agreement, *mutatis mutandis*.

3. In the investigation described in paragraph 2, the Party shall comply with the requirements of Articles 4.2(a) and 4.2(b) of the Safeguards Agreement, and to this end, Articles 4.2(a) and 4.2(b) of the Safeguards Agreement are incorporated into and made part of this Agreement, *mutatis mutandis*.

4. Each Party shall ensure that its competent authorities complete any such investigation within one year of its date of initiation.
5. Neither Party may apply a safeguard measure:
 - (a) except to the extent, and for such time as may be necessary to prevent or remedy serious injury and to facilitate adjustment;
 - (b) for a period exceeding two years, except that the period may be extended by up to two years if the competent authorities of the importing Party determine, in conformity with the procedures specified in this Article, that the measure continues to be necessary to prevent or remedy serious injury and to facilitate adjustment and that there is evidence that the industry is adjusting, provided that the total period of application of a safeguard measure, including the period of initial application and any extension thereof, shall not exceed four years; or
 - (c) beyond the expiration of the transition period, except with the consent of the other Party.
6. No safeguard measure shall be applied again to the import of a good which has been subject to such a measure for a period of time equal to that during which such measure had been previously applied, provided that the period of non-application is at least two years.
7. Where the expected duration of the safeguard measure is over one year, the importing Party shall progressively liberalize it at regular intervals.
8. When a Party terminates a safeguard measure, the rate of customs duty shall be the rate that, according to the Party's Schedule included in Annex 2-A (Reduction or Elimination of Customs Duties), would have been in effect but for the measure.

Article 7.3: Provisional Measures

1. In critical circumstances where delay would cause damage that would be difficult to repair, a Party may apply a safeguard measure on a provisional basis pursuant to a preliminary determination by its competent authorities that there is clear evidence that imports of an originating good from the other Party have increased as the result of the reduction or elimination of a customs duty under this Agreement, and such imports cause or threaten to cause serious injury to the domestic industry.
2. The applying Party shall notify the other Party before applying a safeguard measure on a provisional basis, and shall initiate consultations after applying the measure.
3. The duration of any provisional measure shall not exceed 200 days, during which time

the applying Party shall comply with the requirements of Articles 7.2.2 and 7.2.3.

4. The applying Party shall promptly refund any tariff increases if the subsequent investigation does not determine that increased imports have caused or threatened to cause serious injury to a domestic industry. The duration of any provisional measure shall be counted as a part of the duration period of the measure described in Article 7.2.5(b).

Article 7.4: Compensation

1. No later than 30 days after it applies a safeguard measure, a Party shall afford an opportunity for the other Party to consult with it regarding appropriate trade liberalizing compensation in the form of concessions having substantially equivalent trade effects or equivalent to the value of the additional duties expected to result from the measure. The applying Party shall provide such compensation as the Parties mutually agree.

2. If the Parties are unable to reach agreement on compensation within 30 days of the commencement of consultations, the exporting Party may suspend the application of substantially equivalent concessions to the trade of the Party applying the safeguard measure. The Parties agree that anti-dumping and countervailing duties should be used in full compliance with the relevant provisions of WTO Agreements and should be based on a fair and transparent system as regards proceedings affecting goods originating in the other Party. For this purpose, the Parties shall ensure, immediately after any imposition of provisional measures and before the final determination, full and meaningful disclosure of all essential facts and considerations which form the basis for the decision to apply measures, without prejudice to Article 6.5 of the Anti-Dumping Agreement and Article 12.4 of the SCM

Agreement. Disclosures shall be made in writing, and allow interested parties sufficient time to make their comments. The Parties shall take due consideration of the comments submitted and make due responses in the final determination.

3. The Parties agree not to take any action in an arbitrary or protectionist manner pursuant to the Anti-Dumping Agreement.

4. Both Parties confirm that there shall be no practice between the two Parties to use a methodology based on surrogate value of a third country, including the use of surrogate price or surrogate cost in determining normal value and export price when determining dumping margin during an anti-dumping procedure.

5. The Parties confirm their current practice of counting toward the average all individual margins, whether positive or negative, when the margins of dumping are established on the weighted-to-weighted basis or transaction-to-transaction basis, or weighted-to-transaction basis, and share their expectation that such practice will continue.¹

Article 7.8: Notification and Consultations

¹ This is without prejudice to the position each Party takes in the WTO's Doha Development Agenda negotiations on Rules.

2. In an anti-dumping investigation, where a Party's authorities have made a preliminary affirmative determination of dumping and injury caused by such dumping, the Party shall afford due consideration and opportunity for meetings, to exporters of the other Party regarding proposed price undertakings which, if accepted, may result in suspension of the investigation without imposition of anti-dumping duties, consistent with the Party's laws and procedures.

3. In a countervailing duty investigation, where a Party's authorities have made a preliminary affirmative determination of subsidization and injury caused by such subsidization, the Party shall afford due consideration and opportunity for meetings, to the other Party and exporters of the other Party regarding proposed price undertakings, which, if accepted, may result in suspension of the investigation without imposition of countervailing duties, consistent with the Party's laws and procedures.

Article 7.10: Verification

1. The general nature of information to be verified and information which needs to be provided should be notified to the exporters and producers concerned prior to the on-the-spot verification.

Article 7.13: Cumulative Assessment

When imports from more than one country are simultaneously subject to anti-dumping or countervailing duty investigation, a Party shall examine carefully whether the cumulative assessment of the effect from the imports of the other Party is appropriate in light of the conditions of competition between the imported goods and the conditions of competition between the imported goods and the like domestic goods.

Article 7.14: De-Minimis Standard Applicable to New Shipper Review

When determining individual margin pursuant to Article 9.5 of the Anti-Dumping Agreement, no duty shall be imposed on exporters or producers in the exporting Party for which it is determined that the dumping margin is less than the *de-minimis* threshold set out in Article 5.8 of the Anti-Dumping Agreement.

If a Party undertakes a market-access commitment in relation to the supply of a service through the mode of supply referred to in Article 8.1(s)(iii), it is thereby committed to allow related transfers of capital into its territory.

⁵ This subparagraph does not cover measures of a Party which limit inputs for the supply of services.

In the sectors inscribed in its Schedule of Specific Commitments, and subject to any conditions and qualifications set out therein, each Party shall accord to services and service suppliers of the other Party, in respect of all measures affecting the supply of services, treatment no less favourable than that it accords to its own like services and service suppliers.⁶

2. A Party may meet the requirement in paragraph 1 by according to services and service suppliers of the other Party either formally identical treatment or formally different treatment to that it accords to its own like services and service suppliers.

3. Formally identical or formally different treatment shall be considered to be less favourable if it modifies the conditions of competition in favour of services or service suppliers of the Party compared to like service or service suppliers of the other Party.

Article 8.5: Additional Commitments

The Parties may negotiate commitments with respect to measures affecting trade in services not subject to scheduling under Article 8.3 or Article 8.4, including those regarding qualifications, standards or licensing matters. Such commitments shall be inscribed in a Party's Schedule of Specific Commitments.

Where such procedures are not independent of the agency entrusted with the administrative decision concerned, the Party shall ensure that the procedures in fact provide for an objective and impartial review.

(b) The provisions of subparagraph (a) shall not be construed to require a Party to institute such tribunals or procedures where this would be inconsistent with its constitutional structure or the nature of its legal system.

3. Where authorisation is required for the supply of a service on which a specific commitment has been made, the competent authorities of a Party shall, within a reasonable period of time after the submission of an application considered complete under its domestic laws and regulations, inform the applicant of the decision concerning the application. On the request of the applicant, the competent authorities of the Party shall provide, without undue delay, information concerning the status of the application.

4. With a view to ensuring that measures relating to qualification requirements and procedures, technical standards and licensing requirements do not constitute unnecessary barriers to trade in services, the Parties shall jointly review the results of the negotiations on disciplines on these measures pursuant to Article VI.4 of GATS, with a view to incorporating them into this Chapter. The Parties note that such disciplines aim to ensure that such requirements are, *inter alia*:

(a) based on objective and transparent criteria, such as competence and the ability to supply the service;

(b) not more burdensome than necessary to ensure the quality of the service; and

(c) in the case of licensing procedures, not in themselves a restriction on the

5. (a) In sectors in which a Party has undertaken specific commitments, pending the incorporation of the disciplines referred to in paragraph 4, that Party shall not apply licensing and qualification requirements and technical standards that nullify or impair its obligation under this Agreement in a manner which:
 - (i) does not comply with the criteria outlined in subparagraphs 4(a), (b) or (c); and
 - (ii) could not reasonably have been expected of that Party at the time the specific commitments in those sectors were made.
 - (b) In determining whether a Party is in conformity with the obligation under paragraph 5(a), account shall be taken of international standards of relevant international organisations applied by that Party.⁸

Such enquiry points shall be established within two years from the date of entry into force of this Agreement.

⁸ The term “relevant international organizations” refers to international bodies whose membership is open to the relevant bodies of at least all Members of the WTO.

Article 8.9: Recognition

1. For the purposes of the fulfilment, in whole or in part, of its standards or criteria for the authorisation, licensing, or certification of services suppliers, and subject to the requirements of paragraph 4, a Party may recognise the education or experience obtained, requirements met, or licenses or certifications granted in the other Party. Such recognition, which may be achieved through harmonisation or otherwise, may be based upon an agreement or arrangement between the Parties or the relevant competent bodies or may be accorded autonomously.

2. Where a Party recognises, autonomously or by agreement or arrangement, the education or experience obtained, requirements met, or licenses or certifications granted in the territory of a non-Party, the Party is not obliged to accord such recognition to the education or experience obtained, requirements met, or licenses or certifications granted in the territory of the other Party.

3. A Party that is a party to an agreement or arrangement of the type referred to in paragraph 2, whether existing or future, shall afford adequate opportunity for the other Party, upon request, to negotiate its accession to such an agreement or arrangement or to negotiate a comparable one with it. Where a Party accords recognition autonomously, it shall afford adequate opportunity for the other Party to demonstrate that education, experience, licenses, or certifications obtained or requirements met in that other Party's territory should be recognised.

4. A Party shall not accord recognition in a manner which would constitute a means of discrimination between countries in the application of its standards or criteria for the authorisation, licensing, or certification of service suppliers, or a disguised restriction on trade in services.

5. Each Party shall endeavour:

- (a) within 12 months from the date on which this Agreement takes effect for it, to inform the Committee on Trade in Services of its existing recognition measures and state whether such measures are based on agreements or arrangements of the type referred to in paragraph 1;
- (b) to promptly inform the Committee on Trade in Services as far in advance as possible of the opening of negotiations on an agreement or arrangement of the type referred to in paragraph 1 in order to provide adequate opportunity to the other Party to indicate their interest in participating in the negotiations before they enter a substantive phase; and
- (c) to promptly inform the Committee on Trade in Services when it adopts new recognition measures or significantly modifies existing ones and state whether the measures are based on an agreement or arrangement of the type referred to in paragraph 1.

6. Wherever appropriate, recognition should be based on multilaterally agreed criteria. In appropriate cases, the Parties shall work in cooperation with relevant intergovernmental and non-governmental organisations towards the establishment and adoption of common international standards and criteria for recognition and common international standards for the practice of relevant services trades and professions.

Article 8.10: Payments and Transfers

1. Except under the circumstances envisaged in Article XII (Restrictions to Safeguard the Balance of Payments) of GATS, a Party shall not apply restrictions on international transfers and payments for current transactions relating to its specific commitments.

2. Nothing in this Chapter shall affect the rights and obligations of the Parties as members of the International Monetary Fund under the *Articles of Agreement of the International Monetary Fund* (“Articles of Agreement”), including the use of exchange actions which are in conformity with the Articles of Agreement, provided that a Party shall not impose restrictions on any capital transactions inconsistently with its specific commitments regarding such transactions, except under Article XII (Restrictions to Safeguard the Balance of Payments) of GATS or at the request of the International Monetary Fund.

Article 8.11: Denial of Benefits

Subject to prior notification and consultation, a Party may deny the benefits of this Chapter to service suppliers of the other Party where the service is being supplied by a juridical person, if it is:

- (a) owned or controlled by persons of a non-Party and has no substantive business operations in the territory of the other Party;
- (b) owned or controlled by persons of the denying Party and has no substantive business operations in the territory of the other Party; or
- (c) owned or controlled by persons of a non-Party, and the denying Party adopts or maintains measures with respect to the non-Party or a person of the non-Party that prohibit transactions with the juridical person or that would be violated or circumvented if the benefits of this Chapter were accorded to the juridical person.

Article 8.12: Monopolies and Exclusive Service Suppliers

1. Each Party shall ensure that any monopoly supplier of a service in its territory does not, in the supply of the monopoly service in the relevant market, act in a manner inconsistent with that Party’s obligations and specific commitments.

2. Where a Party's monopoly supplier competes, either directly or through an affiliated company, in the supply of a service outside the scope of its monopoly rights and which is subject to that Party's specific commitments, the Party shall ensure that such a supplier does not abuse its monopoly position to act in its territory in a manner inconsistent with such commitments.

3. If a Party has reason to believe that a monopoly supplier of a service of the other Party is acting in a manner inconsistent with paragraph 1 or 2, that Party may request the other Party establishing, maintaining or authorizing such supplier to provide specific information concerning the relevant operations.

4. This Article shall also apply to cases of exclusive service suppliers, where a Party, formally or in effect, (a) authorises or establishes a small number of service suppliers and (b) substantially prevents competition among those suppliers in its territory.

Article 8.13: Subsidies

1. The Parties shall review the issue of disciplines on subsidies related to trade in services in the light of any disciplines agreed under Article XV of GATS with a view to their incorporation into this Agreement.

2. At the request of a Party which considers that it is adversely affected by a subsidy of the other Party, the Parties shall enter into consultations on such matters.

Article 8.14: Committee on Trade in Services

Article 8.15: Business Practices

1. The Parties recognise that certain business practices of service suppliers, other than those falling under Article 8.12, may restrain competition and thereby restrict trade in services.

2. Each Party shall, on the request of the other Party (“Requesting Party”), enter into consultations with a view to eliminating practices referred to in paragraph 1. The Party addressed (“Requested Party”), shall accord full and sympathetic consideration to such a request and shall cooperate through the supply of publicly available non-confidential information of relevance to the matter in question. The Requested Party shall also provide other information available to the Requesting Party, subject to its domestic law and to the conclusion of satisfactory agreement concerning the safeguarding of its confidentiality by the Requesting Party.

Article 8.16: Contact Points

Reference Paper

Scope

The following are definitions and principles on the regulatory framework for the basic telecommunications services.

Definitions

Users mean service consumers and service suppliers.

Essential facilities mean facilities of a public telecommunications transport network or service that:

- (a) are exclusively or predominantly provided by a single or limited number of suppliers; and
- (b) cannot feasibly be economically or technically substituted in order to provide a service.

A major supplier is a supplier which has the ability to materially affect the terms of participation (having regard to price and supply) in the relevant market for basic telecommunications services as a result of:

- (a) control over essential facilities; or
- (b) use of its position in the market.

1. Competitive safeguards

1.1 Prevention of anti-competitive practices in telecommunications

Appropriate measures shall be maintained for the purpose of preventing suppliers who, alone or together, are a major supplier from engaging in or continuing anti-competitive practices.

1.2 Safeguards

The anti-competitive practices referred to above shall include in particular:

- (a) engaging in anti-competitive cross-subsidization;
- (b) using information obtained from competitors with anti-competitive results; and
- (c) not making available to other services suppliers on a timely basis technical information about essential facilities and commercially relevant information which are necessary for them to provide services.

2. Interconnection

2.1 This section applies to linking with suppliers providing public telecommunications transport networks or services in order to allow the users of one supplier to communicate with users of another supplier and to access services provided by another supplier, where specific commitments are undertaken.

2.2 Interconnection to be ensured

Interconnection with a major supplier will be ensured at any technically feasible point in the network. Such interconnection is provided.

- (a) under non-discriminatory terms, conditions (including technical standards and specifications) and rates and of a quality no less favourable than that provided for its own like services or for like services of non-affiliated service suppliers or for its subsidiaries or other affiliates;
- (b) in a timely fashion, on terms, conditions (including technical standards and specifications) and cost-oriented rates that are transparent, reasonable, having regard to economic feasibility, and sufficiently unbundled so that the supplier need not pay for network components or facilities that it does not require for the service to be provided; and
- (c) upon request, at points in addition to the network termination points offered to the majority of users, subject to charges that reflect the cost of construction of necessary additional facilities.

2.3 Public availability of the procedures for interconnection negotiations

The procedures applicable for interconnection to a major supplier will be made publicly available.

2.4 Transparency of interconnection arrangements

It is ensured that a major supplier will make publicly available either its interconnection agreements or a reference interconnection offer.

2.5 Interconnection: dispute settlement

A service supplier requesting interconnection with a major supplier will have recourse, either:

- (a) at any time; or
- (b) after a reasonable period of time which has been made publicly known

to an independent domestic body, which may be a regulatory body as referred to in paragraph 5 below, to resolve disputes regarding appropriate terms, conditions and rates for interconnection within a reasonable period of time, to the extent that these have not been established previously.

3. Universal service

Any Member has the right to define the kind of universal service obligation it wishes to maintain. Such obligations will not be regarded as anti-competitive *per se*, provided they are administered in a transparent, non-discriminatory and competitively neutral manner and are not more burdensome than necessary for the kind of universal service defined by the Member.

4. Public availability of licensing criteria

Where a licence is required, the following will be made publicly available:

- (a) all the licensing criteria and the period of time normally required to reach a decision concerning an application for a licence; and
- (b) the terms and conditions of individual licences.

The reasons for the denial of a licence will be made known to the applicant upon request.

5. Independent regulators

The regulatory body is separate from, and not accountable to, any supplier of basic telecommunications services. The decisions of and the procedures used by regulators shall be impartial with respect to all market participants.

6. Allocation and use of scarce resources

Any procedures for the allocation and use of scarce resources, including frequencies, numbers and rights of way, will be carried out in an objective, timely, transparent and non-discriminatory manner. The current state of allocated frequency bands will be made publicly available, but detailed identification of frequencies allocated for specific government uses is not required.

Note by the Chairman

Revision

It has been suggested by a number of delegations that it might be helpful to produce a brief and simple note on assumptions applicable to the scheduling of commitments in basic telecoms. The purpose of the attached note is to assist delegations in ensuring the transparency of their commitments and to promote a better understanding of the meaning of commitments. This note is not intended to have or acquire any binding legal status.

NOTES FOR SCHEDULING BASIC TELECOM SERVICES COMMITMENTS

1. Unless otherwise noted in the sector column, any basic telecom service listed in the sector column:
 - (a) encompasses local, long distance and international services for public and non-public use;
 - (b) may be provided on a facilities-basis or by resale; and
 - (c) may be provided through any means of technology (e.g., cable¹, wireless, satellites).
2. Subsector (g) --private leased circuit services -- involves the ability of service suppliers to sell or lease any type of network capacity for the supply of services listed in any other basic telecom service subsector unless otherwise noted in the sector column. This would include capacity via cable, satellite and wireless network.

¹Including all types of cable.

3. In view of points 1 and 2 above, it should not be necessary to list cellular or mobile services as a separate subsector. However, a number of Members have done so, and a number of offers have commitments only in these subsectors. Therefore, in order to avoid extensive changes in schedules, it would seem appropriate for Members to maintain separate entries for these subsectors.

CHAIRMAN'S NOTE

Market Access Limitations on Spectrum Availability

Many Members have entries in the market access column of their schedules indicating that commitments are "subject to availability of spectrum/frequency" or similar wording. In light of the physical nature of spectrum and the constraints inherent in its use, it is understandable that Members may have sought to rely on these words to adequately protect legitimate spectrum management policies. There is, however, doubt that words such as "subject to availability of spectrum/frequency" as listed in the market access column of many Members' schedules achieve that objective.

Spectrum/frequency management is not, *per se*, a measure which needs to be listed under Article XVI. Furthermore under the GATS each Member has the right to exercise spectrum/frequency management, which may affect the number of service suppliers, provided that this is done in accordance with Article VI and other relevant provisions of the GATS. This includes the ability to allocate frequency bands taking into account existing and future needs. Also, Members which have made additional commitment in line with the Reference Paper on regulatory principles are bound by its paragraph 6.

Therefore, words such as "subject to availability of spectrum/frequency" are unnecessary and should be deleted from Members' schedules.

ANNEX 2

Distribution Services

Distribution trade services are comprised of four main sub-sectors:

- commission agents services;
- wholesaling;
- retailing; and
- franchising.

The principal services rendered in each subsector can be characterized as reselling merchandise, accompanied by a variety of related subordinated services, including inventory management; assembly, sorting and grading of bulk lots; breaking bulk lots and redistributing into smaller lots; delivery services; refrigeration, storage, warehousing and garage services; sales promotion, marketing and advertising, installation and after sales services including maintenance and repair and training services. Distribution services are generally covered by CPC 61, 62, 63 and 8929.

Commission Agents' Services consist of sales on a fee or contract basis by an agent, broker or auctioneer or other wholesalers of goods/merchandise and related subordinated services.

Wholesaling consist of the sale of goods/merchandise to retailers to industrial, commercial, institutional, or other professional business users, or to other wholesalers and related subordinated services.

Retailing services consist of the sale of goods/merchandise for personal or household consumption either from a fixed location (e.g., store, kiosk, etc.) or away from a fixed location and related subordinated services.

Franchising services consist of the sale of the use of a product, trade name or particular business format system in exchange for fees or royalties. Product and trade name franchising involves the use of a trade name in exchange for fees or royalties and may include an obligation for exclusive sale of trade name products. Business format franchising involves the use of an entire business concept in exchange for fees and royalties, and may include the use of a trade name, business plan, and training materials and related subordinated services.

ANNEX 3

Insurance: Definition of "Master Policy"

Master policy is the policy that provides blanket coverage for the same legal person's property and liabilities located in different places. Master policy may only be issued by the business department of an insurer's head office or that of its authorized province-level branch offices. Other branches are not allowed to issue master policy.

Master policy business with the state key construction projects as its subject-matter insured. If investors on the state key construction projects (i.e., projects that are so listed and annually announced by the State Development and Planning Commission) meet either of the following requirements, they may purchase master policy from insurers that are located in the same place as the investors' legal persons do.

The investment on the subject-matter insured is all from China (including the reinvestment from the foreign-invested enterprises in China), and the sum of investment of the investor accounts for over 15 per cent of the total investment.

The investment is partially from abroad, and partially from China (including the reinvestment from the foreign-invested enterprises in China), and the sum of investment of the Chinese investor accounts for over 15 per cent for the total domestic investment.

For those projects that draw investment all from abroad, every insurer may provide coverage in the form of master policies.

Master policy covering different subjects-matter insured of the same legal person. For those subjects-matter insured located in different places and owned by the same legal person (excluding financial, railway, and post and telecommunications industries and enterprises), master policy may be issued on the basis of either of the following conditions.

For the sake of payment of premium tax, insurance companies incorporated where the legal person or accounting unit of the insurance applicant is located are allowed to issue master policy.

If over 50 per cent of insurance amount of the subject-matter insured is from a larger or medium sized city, then insurers in that city are allowed to issue master policy, no matter whether the insurance applicant's legal person or accounting unit is located in the city.

Motor insurance, credit insurance, employer liabilities insurance, statutory insurance, and other insurance business excluded by the CIRC can not be underwritten or co-insured by insurers located other than where the subject-insured are located, or covered under a master policy

7. FINANCIAL SERVICES			
<i>Headnotes: All financial services are subject to the following provisions.</i>			
1. Juridical persons supplying financial services and constituted under Korean law are subject to non-discriminatory limitations on juridical form.²⁴ 2. The commitments of Korea are subject to the limitation that in order to establish or acquire a controlling interest in a financial service supplier in Korea, a foreign investor must own or control a financial service supplier that engages in supplying financial services within the same financial services sub-sector in its home country. 3. For greater certainty, nothing in this Agreement limits Korea's ability to require the chief executive of a financial service supplier established under its laws to reside within its territory. 4. For prudential reasons within the context of the Financial Services Chapter, Korea shall not be prevented from taking measures including requirements related to parent companies, the minimum capital requirement, minimum operating funds requirement, business worker's license and approval for business activities. 5. A financial institution must be established for only one business defined in related law and thus cannot engage in other business activities regulated by other relevant laws. 6. Even if Korea permits persons located in its territory, and its national wherever located, to purchase financial services from cross-border financial service suppliers of China located in the territory of China, such permission will not mean that Korea is required to permit such suppliers to do business or engage in solicitation in the territory of Korea. Korea may define "doing business" and "solicitation" for purposes of this obligation, provided that those definitions are not inconsistent with the commitments regarding cross-border supply of financial services undertaken by Korea. 7. Without prejudice to other means of prudential regulation on cross-border supply of financial services, Korea may require the registration or authorization of cross-border financial service suppliers of China and of financial instruments. Korea may require a cross-border financial service supplier of China to provide information, solely for informational or statistical purposes, on the financial services it has supplied within the territory of Korea. Korea will protect such business information that is confidential from any disclosure that would prejudice the competitive position of the supplier. 8. Cross-border supply of financial services and supply through consumer movement may not be settled in Korean currency. After the establishment of a commercial presence, financial institutions may handle only transactions, denominated and settled in Korean currency, with residents. Approval is required for transactions denominated or settled in foreign currency or transactions with non-residents. 9. Assets owned by branches must be kept within the territory of Korea. Capital of the head office is not recognized as the basis for determining the extent of funding and lending activities of domestic branches. 10. Demand deposit interest rates are regulated. 11. The management and operation of assets of a financial institution are restricted. 12. A financial institution may not own non-business real estate. 13. Introduction of new financial products including derivatives is subject to approval.			

²⁴ This headnotes is not itself to affect, or otherwise limit, a choice by a financial service supplier of the other Party between branches or subsidiaries.

Section D: Other Measures

Article 10.7: Independent Regulatory Bodies

1. Each Party shall ensure that its telecommunications regulatory body is separate from and functionally independent of any supplier of public telecommunications networks or services. To this end, each Party shall ensure that its telecommunications regulatory body does not own equity² or maintain an operating or management role in any such supplier.
2. Each Party shall ensure that the decisions and procedures of its telecommunications regulatory body are impartial with respect to all market participants³ and shall be made and implemented on a timely basis.

Article 10.8: Universal Service

Each Party shall administer any universal service obligation that it maintains in a transparent, non-discriminatory, and competitively neutral manner and shall ensure that its universal service obligation is not more burdensome than necessary for the kind of universal service that it has defined.

Article 10.9: Licensing Process

² For greater certainty, this paragraph shall not prohibit a government entity of a Party other than the telecommunications regulatory body from owning equity in a supplier of telecommunications services.

³ For greater certainty, the term “market participants” includes service suppliers seeking to participate in the telecommunications market.

1. When a Party requires a supplier of public telecommunications networks or services to have a licence, the Party shall make publicly available:

- (a) all the licensing criteria and procedures it applies;
- (b) the period it normally requires to reach a decision concerning an application for a licence; and
- (c) the terms and conditions of all licences in effect.

2. Each Party shall ensure that, on request, an applicant receives the reasons for the denial of, revocation of, refusal to renew, or imposition of conditions on, a licence.

Article 10.10: Allocation and Use of Scarce Telecommunications Resources

1. Each Party shall administer its procedures for the allocation and use of scarce telecommunications resources, including frequencies, numbers, and rights-of-way, in an objective, timely, transparent, and non-discriminatory manner.

2. Each Party shall make publicly available the current state of allocated frequency bands related to telecommunication service (especially public telecommunication service), but shall not be required to provide detailed identification of frequencies allocated or assigned for specific government uses.

3. For greater certainty, a Party's measures allocating and assigning spectrum and managing frequency are not measures that are *per se* inconsistent with Chapters 8 (Trade in Services) and 12 (Investment). Accordingly, each Party shall retain the right to establish and apply spectrum and frequency management policies that may have the effect of limiting the number of suppliers of public telecommunications networks or services, provided that it does so in a manner consistent with other provisions of this Agreement. This includes the ability to allocate frequency bands, taking into account current and future needs.

4. Each Party shall endeavour to allocate and assign spectrum for non-government telecommunications services in a transparent manner that considers the overall public interest, including the encouragement of the economically efficient use of the spectrum and competition among suppliers of telecommunications services, recognising that a Party may encourage such activities through a variety of means, including through administrative incentive pricing, auctions, unlicensed use, or inviting for bidding, etc.

Article 10.11: Enforcement

1. Each Party shall provide its telecommunications regulatory body with the authority to enforce the Party's measures relating to the obligations in Articles 10.3 through 10.6.

2. Such authority shall include the ability to impose, or seek from administrative or judicial bodies, effective sanctions, which may include financial penalties, or revocation of

licences, etc.

Further to Articles 18.3 (Administrative Proceedings) and 18.4 (Review and Appeal), each Party shall ensure that:

Recourse

- (a) (i) suppliers of public telecommunications networks or services may have recourse to a telecommunications regulatory body or other relevant body of the Party in its territory to resolve disputes between suppliers of public telecommunications networks or services on a timely basis regarding measures relating to matters in Articles 10.3 through 10.6;
- (ii) suppliers of public telecommunications networks or services of the other Party, which have obtained licenses in accordance with the laws and regulations of the Party, that have requested interconnection with a major supplier in the Party's territory may have recourse, within a reasonable and publicly specified period after the supplier requests interconnection, to a telecommunications regulatory body or other relevant body to resolve disputes regarding the terms, conditions, and rates for interconnection with such major supplier; and

Judicial Review

- (b) any service supplier whose legally-protected interests are adversely affected by a determination or decision of the Party's telecommunications regulatory body may obtain review of the determination or decision by an impartial and independent judicial authority of the Party according to the laws of the Party. Neither Party shall permit the making of an application for judicial review to constitute grounds for non-compliance with the determination or decision of the telecommunications regulatory body, unless the relevant judicial body otherwise determines.

Article 10.13: Transparency

Further to Article 18.1 (Publication), each Party shall ensure that:

- (a) regulatory decisions, including the basis for such decisions, of its telecommunications regulatory body are promptly published or otherwise made available to all interested persons;
- (b) its measures relating to public telecommunications networks or services are made publicly available, including:

Article 10.14: Measures Concerning Technologies and Standards⁴

1. Neither Party shall prevent suppliers of public telecommunications networks or services or value-added services from having the flexibility to choose the technologies that they use to supply their services.
2. Notwithstanding paragraph 1, a Party may apply a measure that limits the technologies or standards that a supplier of public telecommunications networks or services or value-added services may use to supply its services, provided that the measure is designed to satisfy a legitimate public policy objective and is not prepared, adopted or applied in a manner that creates unnecessary obstacles to trade.⁵

Article 10.15: Consultation with Industry

Each Party shall facilitate consultation with suppliers of public telecommunications networks or services of the other Party operating in its territory in the development of telecommunications policy, regulations and standards.

⁴ For greater certainty, except for paragraph 1, this Article shall not apply to measures adopted before the date of entry into force of this Agreement.

⁵ For greater certainty: 1) a Party retains the right to define its own legitimate public policy objectives; and 2) whenever such a measure is based on relevant international standards, it shall be rebuttably presumed not to create unnecessary obstacles to trade.

Article 10.16: International Roaming Rates

The Parties shall encourage their respective telecommunications service suppliers to reduce the wholesale rates for international mobile roaming between the Parties, with a view to reducing international mobile roaming rates.

1. Each Party shall in its territory accord to investors of the other Party and to covered investment treatment no less favorable than that it accords in like circumstances to its own investors and their investments with respect to investment activities.
2. Paragraph 1 shall not apply to non-conforming measures, if any, existing at the date of entry into force of this Chapter maintained by each Party under its laws and regulations, or

any amendment or modification to such measures, provided that the amendment or modification does not decrease the conformity of the measure as it existed immediately before the amendment or modification. Treatment granted to covered investment once admitted shall in no case be less favorable than that granted at the time when the original investment was made.

3. Each Party shall take, where applicable, all appropriate steps to progressively remove all the non-conforming measures referred to in paragraph 2.

Article 12.4: Most-Favored-Nation Treatment⁴

1. Each Party shall in its territory accord to investors of the other Party and to covered investments treatment no less favorable than that it accords in like circumstances to investors of any non-Party and to their investments with respect to investment activities and the matters relating to the admission of investment in accordance with paragraph 2 of Article 12.2.

2. Paragraph 1 shall not be construed so as to oblige a Party to extend to investors of the other Party and covered investments any preferential treatment resulting from its membership of:

- (a) any customs union, free trade area, monetary union, similar international agreement leading to such union or free trade area, or other forms of regional economic cooperation;
- (b) any international agreement or arrangement for facilitating small scale trade in border areas; or
- (c) any bilateral and multilateral international agreements involving aviation, fishery and maritime matters including salvage.

3. It is understood that the treatment accorded to investors of any non-Party and to their investments as referred to in paragraph 1 does not include treatment accorded to investors of any non-Party and to their investments by provisions concerning the settlement of investment disputes between a Party and investors of any non-Party that are provided for in other international agreements.

Article 12.5: Minimum Standard of Treatment⁵

1. Each Party shall accord to covered investments treatment in accordance with customary international law, including fair and equitable treatment and full protection and security.

⁴ For the purposes of this Article, the term “non-Party” shall not include any separate customs territory within the meaning of the *General Agreement on Tariffs and Trade* or of the WTO Agreement that is a member of the World Trade Organization as of the date of entry into force of this Agreement.

⁵ This Article shall be interpreted in accordance with Annex 12-A.

2. For greater certainty, paragraph 1 prescribes the customary international law minimum standard of treatment of aliens as the minimum standard of treatment to be afforded to covered investments. The concepts of “fair and equitable treatment” and “full protection and security” do not require treatment in addition to or beyond that which is required by that standard, and do not create additional substantive rights. The obligation in paragraph 1 to provide:

- (a) “fair and equitable treatment”⁶ includes the obligation not to deny justice in criminal, civil, or administrative adjudicatory proceedings in accordance with the principle of due process of law; and
- (b) “full protection and security” requires each Party to provide the level of police protection required under customary international law.

3. A determination that there has been a breach of another provision of this Agreement, or of a separate international agreement, does not establish that there has been a breach of this Article.

4. Each Party shall accord to investors of the other Party, and to covered investments, non-discriminatory treatment with respect to measures it adopts or maintains relating to losses suffered by investments in its territory owing to war or other armed conflict, or revolt, insurrection, riot, or other civil strife.

5. Notwithstanding paragraph 4, if an investor of a Party, in the situations referred to in paragraph 4, suffers a loss in the territory of the other Party resulting from:

- (a) requisitioning of its covered investment or part thereof by the latter’s forces or authorities; or
- (b) destruction of its covered investment or part thereof by the latter’s forces or authorities, which was not required by the necessity of the situation,

the latter Party shall provide the investor restitution, compensation, or both, as appropriate, for such loss. Any compensation shall be in accordance with Article 12.9, *mutatis mutandis*.

6. Paragraph 4 does not apply to existing measures relating to subsidies or grants that would be inconsistent with Article 12.3.

Article 12.6: Access to the Courts of Justice

Each Party shall in its territory accord to investors of the other Party treatment no less favorable than that it accords in like circumstances to its own investors and investors of any non-Party, with respect to access to the courts of justice and administrative tribunals and agencies in all degrees of jurisdiction, both in pursuit and in defense of such investors’ rights.

⁶ Determination on fair and equitable treatment shall be based on adequate proof.

Article 12.7: Prohibition of Performance Requirements

1. The provisions of the *Agreement on Trade-Related Investment Measures* in Annex 1A to WTO Agreement are incorporated into and made part of this Chapter, *mutatis mutandis* and shall apply with respect to all covered investments under this Chapter.
2. Neither Party shall, in its territory, impose unreasonable or discriminatory measures on covered investment by investors of the other Party concerning performance requirements on export or transfer of technology.

Article 12.8: Transparency

1. Each Party shall promptly publish, or otherwise make publicly available, its laws, regulations, administrative procedures and administrative rulings and judicial decisions of general application as well as international agreements to which the Party is a party and which pertain to or affect investment activities. The Government of each Party shall make easily available to the public, the names and addresses of the competent authorities responsible for such laws, regulations, administrative procedures and administrative rulings.
2. When a Party introduces or changes its laws or regulations that significantly affect the implementation and operation of this Chapter, the Party shall endeavor to provide a reasonable interval between the time when such laws or regulations are published or made publicly available and the time when they enter into force, except for those laws or regulations involving national security, foreign exchange rates or monetary policies and other laws or regulations the publication of which would impede law enforcement.
3. Each Party shall, on the request by the other Party, within a reasonable period of time and through existing bilateral channels, respond to specific questions from, and provide information to, the latter Party with respect to any actual or proposed measure of the former Party, which might materially affect the interests of the latter Party and its investors under this Chapter.
4. Each Party shall, in accordance with its laws and regulations:
 - (a) make public in advance regulations of general application that affect any matter covered by this Chapter; and
 - (b) provide a reasonable opportunity for comments by the public for those regulations related to investment and give consideration to those comments before adoption of such regulations.
5. The provisions of this Article shall not be construed so as to oblige any Party to disclose confidential information, the disclosure of which:
 - (a) would impede law enforcement;
 - (b) would be contrary to the public interest; or

- (c) could prejudice privacy or legitimate commercial interests.

Article 12.9: Expropriation and Compensation⁷

1. Neither Party shall expropriate or nationalize a covered investment or take any measure equivalent to expropriation or nationalization (hereinafter referred to in this Chapter as “expropriation”) except:

- (a) for a public purpose;
- (b) on a non-discriminatory basis;
- (c) in accordance with its laws and international standard of due process of law; and
- (d) upon compensation pursuant to paragraphs 2 through 4.

2. The compensation shall be equivalent to the fair market value of the expropriated investments at the time when the expropriation was publicly announced or when the expropriation occurred, whichever is the earlier. The fair market value shall not reflect any change in market value occurring because the expropriation had become publicly known earlier.

3. The compensation shall be paid without delay and shall include interest at a commercially reasonable rate, taking into account the length of time from the time of expropriation to the time of payment. It shall be effectively realizable and freely transferable and shall be freely convertible, at the market exchange rate prevailing on the date of expropriation, into the currency of the Party of the investors concerned, and into freely usable currencies.

4. Without prejudice to the provisions of Article 12.12, the investors affected by expropriation shall have a right of access to the courts of justice or the administrative tribunals or agencies of the Party making the expropriation to seek a prompt review of the investors’ case and the amount of compensation in accordance with the principles set out in this Article.

Article 12.10: Transfers⁸

1. Each Party shall permit all transfers relating to a covered investment to be made freely and without delay into and out of its territory⁹. Such transfers include:

⁷ This Article shall be interpreted in accordance with Annexes 12-A and 12-B.

⁸ For greater certainty, Annex 12-C applies to this Article.

⁹ For greater certainty, the transfers referred to in this Article shall comply with relevant formalities stipulated by the laws and regulations, if any, of a Party relating to exchange administration.

2. Each Party shall permit transfers relating to a covered investment to be made in a freely usable currency at the market rate of exchange prevailing at the time of transfer.

3. Each Party shall permit returns in kind relating to a covered investment to be made as authorized or specified in a written agreement between the Party and a covered investment or an investor of the other Party.

4. Notwithstanding paragraphs 1 through 3, a Party may prevent a transfer through the equitable, non-discriminatory, and good faith application of its laws relating to:

- (a) bankruptcy, insolvency, or the protection of the rights of creditors;
- (b) issuing, trading, or dealing in securities, futures, options, or derivatives;

Article 12.11: Subrogation

1. If a Party or its designated agency makes a payment to any of its investors pursuant to an indemnity, guarantee or insurance contract, pertaining to investments of that investor in the territory of the other Party, the latter Party shall:

- (a) recognize the assignment, to the former Party or its designated agency, of any right or claim of the investor that formed the basis of such payment; and
- (b) recognize the right of the former Party or its designated agency to exercise by virtue of subrogation such right or claim to the same extent as the original right or claim of the investor.

2. If a Party or its designated agency has made a payment to its investors and thereby entered into the rights of the investor, the investor may not make a claim based on these rights against the other Party without the consent of the former Party or its designated agency making the payment. For greater certainty, the investor shall continue to be entitled to exercise its rights that have not been subrogated pursuant to paragraph 1.

3. Articles 12.5, 12.9 and 12.10 shall apply *mutatis mutandis* as regards payment to be made to the Party or its designated agency referred to in paragraph 1 by virtue of such assignment of right or claim, and the transfer of such payment.

Article 12.12: Settlement of Investment Disputes between a Party and an Investor of the Other Party

1. For the purposes of this Article, an investment dispute is a dispute between a Party and an investor of the other Party that has incurred loss or damage by reason of, or arising out of, an alleged breach of any obligation of the former Party under this Chapter with respect to the investor or its covered investments in the territory of the former Party.

2. Any investment dispute shall, as far as possible, be settled amicably through consultation between the investor who is a party to the investment dispute (hereinafter referred to in this Article as “disputing investor”) and the Party that is a party to the investment dispute (hereinafter referred to in this Article as “disputing Party”). A written request for consultation shall be submitted to the disputing Party by the disputing investor before the submission of the investment dispute to the arbitration set out in paragraph 3. 4. Each Party hereby gives its consent to the submission of an investment dispute by a disputing investor to the arbitration set out in paragraph 3 in accordance with the provisions of this Article.

5. Once the disputing investor has submitted an investment dispute to the competent court of the disputing Party or to one of the arbitrations set out in paragraph 3, the choice of the disputing investor shall be final and the disputing investor may not submit thereafter the same dispute to the other arbitrations set out in paragraph 3.

6. Notwithstanding paragraphs 3 and 4, no claim may be submitted to the arbitration set out in paragraph 3 unless the disputing investor gives the disputing Party written waiver of any right to initiate before any competent court of the disputing Party with respect to any measure of the disputing Party alleged to constitute a breach referred to in paragraph 1.

7. When the disputing investor submits a written request for consultation to the disputing Party under paragraph 2, the disputing Party may require, without delay, the investor concerned to go through the domestic administrative review procedure specified by the laws and regulations of that Party before the submission to the arbitration set out in paragraph 3.

¹¹ For the purposes of subparagraph (a), this paragraph shall not be construed to prevent, where applicable, preliminary trial by administrative tribunals or agencies.

The domestic administrative review procedure shall not exceed four months from the date on which an application for the review is filed. If the procedure is not completed by the end of the four months, it shall be deemed to be completed and the disputing investor may submit the investment dispute to the arbitration set out in paragraph 3. The investor may file an application for the review unless the four months consultation period as provided in paragraph 3 has elapsed.¹²

8. The applicable arbitration rules shall govern the arbitration set out in paragraph 3 except to the extent modified in this Article.

9. The award rendered by an arbitral tribunal established under paragraph 3 (hereinafter referred to in this Article as the “Tribunal”) shall include:

- (b) one or both of the following remedies, only if the disputing investor’s loss or damage is attributed to such breach:
 - (i) monetary damages and applicable interest; and

Nothing in Article 12.3 shall be construed to prevent a Party from adopting or maintaining a measure that prescribes special formalities in connection with investment activities by investors of the other Party in its territory, such as the requirement that investments be legally constituted under the laws or regulations of the former Party, provided that such formalities are consistent with this Chapter and do not materially impair the

2. Notwithstanding Articles 12.3 and 12.4, a Party may require an investor of the other Party, in its territory, to provide information concerning its covered investments solely for informational or statistical purposes. The former Party shall protect such information that is confidential from any disclosure that would prejudice the competitive position of the investor of the latter Party or its covered investments. Nothing in this paragraph shall be construed so as to prevent a Party from otherwise obtaining or disclosing information in connection with the equitable and good faith application of its law.

- (b) adopts or maintains measures with respect to the non-Party that prohibit transactions with the enterprise or that would be violated or circumvented if

 - (a) The determination of whether an action or a series of actions by a Party, in a specific fact situation, constitutes an indirect expropriation, requires a case-by-case, fact-based inquiry that considers, among other factors,:
 - (i) the economic impact of the action or series of actions, although the fact that such action or series of actions has an adverse effect on the economic value of investments, standing alone, does not establish that an indirect expropriation has occurred;
 - (ii) the extent to which the action or series of actions interferes with distinct and reasonable expectations arising out of investments; and
 - (iii) the character and objectives of the action or series of actions, including whether such action is proportionate to its objectives.

2. Either Party may request consultations with the other Party with respect to any matter described in Article 20.2 by delivering written notification to the other Party. The requesting Party shall set out the reasons for the request, including identification of the measure at issue and an indication of the legal basis for the complaint, in the written notification. If a request for consultations is made, the other Party shall reply in writing

to the request within 10 days after the date of its receipt.

3. Consultations shall be held in good faith within 30 days after the date of receipt of the request with a view of reaching a mutually satisfactory solution and take place, unless the Parties otherwise agree, in the territory of the requested Party .

5. Each Party shall:

- (a) provide sufficient information in the consultations to enable a full examination of how the matter subject to consultations might affect the operation of this Agreement; and

If the Parties agree, procedures for good offices, conciliation or mediation may continue while the dispute proceeds for resolution before a panel established under Article 20.6.

4. The Parties are encouraged to enter into a mediation procedure in particular when a Party believes that a certain non-tariff measure adversely affects trade between the Parties and that such measure is related to the matter falling under market access of goods of this Agreement and is subject to this Chapter, unless the Parties otherwise agree.

5. The Parties should endeavor to participate in the mediation procedure provided for in paragraph 4 in an expeditious way and with the aim to reach a mutually agreed solution within a reasonable period of time with the assistance of a mediator designated

or appointed by the Parties upon agreement. Where the Parties have agreed to a solution, each Party should take any measure necessary to implement the mutually agreed solution.

2. The chair of the panel shall not be a national of either Party, nor have his or her usual place of residence in the territory of either Party, nor be employed by either Party, nor have dealt with the matter in any capacity.

3. If a panelist appointed under this Article resigns or becomes unable to serve on the panel, a successor shall be appointed within 15 days in accordance with the selection procedure of the original panelist and the successor shall have all the powers and duties of the original panelist. In such a case, any time period applicable to the panel proceedings shall be suspended during the appointment of the successor.

Article 20.8: Functions of Panel

1. The function of a panel is to make an objective assessment of the dispute before it, including an examination of the facts of the case and the applicability of and conformity with this Agreement.

2. Where a panel concludes that a measure is inconsistent with this Agreement, it shall recommend that the Party complained against bring the measure into conformity with this Agreement.

Article 20.9: Rules of Procedure

2 Unless the Parties otherwise agree within 20 days from the date of receipt of the request for the establishment of the panel, the panel's terms of reference shall be:

“To examine, in the light of the relevant provisions of this Agreement, the matter referred to in the request for the establishment of the panel pursuant to Article 20.6 and to make findings of law and fact together with the reasons therefore for the resolution of the dispute, conclusions, and recommendations.”

3. On the request of a Party, or on its own initiative, the panel may seek information and technical advice from any person or body that it deems appropriate, provided that the Parties so agree.

In the event of such a suspension, all relevant timeframes set out in this Chapter shall be extended by the amount of time that the work was suspended. If the work of the panel has been suspended for more than 12 months, the authority for establishment of the panel shall lapse, unless the Parties otherwise agree.

2. The Parties may agree to terminate the proceedings of a panel.

Article 20.11: Panel Report

1. Unless the Parties otherwise agree, a panel shall, within 120 days after the last panelist is appointed, issue to the Parties an interim report.

2. In exceptional cases, if the panel considers it cannot issue its interim report within the period of 120 days, it shall inform the Parties in writing of the reasons for the delay together with an estimate of the period within which it will release its report. Any delay shall not exceed a further period of 30 days unless the Parties otherwise agree.

3. The panel shall base its report on the relevant provisions of this Agreement and the submissions and arguments of the Parties. The panel shall consider this Agreement in accordance with customary rules of interpretation of public international law, including those codified in the *Vienna Convention on the Law of Treaties* (1969).

4. Each Party may submit written comments to the panel on its interim report within 15 days of the presentation of the report. After considering any written comments by the Parties on the interim report, the panel may modify its report and

make any further examination it considers appropriate.

5. The panel shall present a final report to the Parties within 45 days of the presentation of the interim report, unless the Parties otherwise agree. The Parties shall make the final report available to the public within 15 days after the issuance of the final report, subject to the protection of confidential information, unless the Parties decide not to do so.

6. The panel shall make every effort to take its decision by consensus. If the panel is unable to reach consensus, it may take its decision by majority vote. Panelists may furnish dissenting or separate opinions on matters not unanimously agreed. All opinions expressed in the panel report by individual panelists shall be anonymous.

7. The final report of the panel shall be final and binding on the Parties for the dispute and shall not create any rights or obligations for persons. The final report shall set out the findings of fact, the applicability of the relevant provisions of this Agreement and the basic rationale behind any findings and conclusions that the panel makes.

Article 20.12: Implementation of the Final Report of the panel

1. If in its final report the panel determines that a Party has not conformed with its obligations under this Agreement, the resolution, whenever possible, shall be to eliminate the non-conformity.

2. Unless the Parties otherwise agree, the Party complained against shall eliminate the non-conformity as determined in the final report of the panel immediately, or if this is not practicable, within a reasonable period of time referred to in Article 20.13.

Article 20.13: Reasonable Period of Time

1. The reasonable period of time shall be mutually determined by the Parties, or where the Parties fail to agree on the reasonable period of time within 30 days of the issuance of the final report of the panel, either Party may, to the extent possible, refer the matter to the original panel, which shall determine the reasonable period of time.

2. The panel shall provide its report to the Parties within 30 days after the date of the referral of the matter to it. When the panel considers that it cannot provide its report within this timeframe, it shall inform the Parties in writing of the reasons for the delay together with an estimate of the period within which it will submit its report. Any delay shall not exceed a further period of 30 days unless the Parties otherwise agree.

3. The reasonable period of time normally should not exceed 15 months from the date of issuance of the final report of the panel.

its progress to comply with the final report of the panel at least 30 days before the expiry of the reasonable period of time.

Article 20.14: Compliance Review

2. Where there is disagreement as to the existence or consistency with this Agreement of measures taken to comply with the recommendations of the panel, such dispute shall be referred to a panel proceeding, including wherever possible by resort to the original panel.

3. The panel shall provide its report to the Parties within 60 days after the date of the referral of the matter to it. When the panel considers that it cannot provide its report within this timeframe, it shall inform the Parties in writing of the reasons for the delay together with an estimate of the period within which it will submit its report. Any delay shall not exceed a further period of 30 days unless the Parties otherwise agree.

4. Articles concerning panel procedures in this Agreement shall apply *mutatis mutandis* to the procedure under this Article.

Article 20.15: Suspension of Concessions or Other Obligations

1. If the panel under Article 20.14 finds that the Party complained against fails to bring the measure found to be inconsistent with this Agreement into compliance with the recommendations of the panel within the reasonable period of time established, or if the Party complained against expresses in writing that it will not implement the recommendations, or if no measure taken to comply exists, and the Parties fail to reach an agreement on compensation within 20 days after entering into negotiations for compensation, the complaining Party may suspend the application of concessions or other obligations to the Party complained against. The complaining Party shall notify the Party complained against 30 days before suspending concessions or other obligations. The notification shall indicate the level and scope of the suspension of concessions or other obligations.

2. Compensation and suspension of concessions or other obligations are temporary measures available in the event that the recommendations and determinations are not implemented within the reasonable period of time. However, neither compensation nor suspension of concessions or other obligations is preferred to full implementation of a recommendation to bring a measure into conformity with this Agreement. Compensation shall be consistent with this Agreement.

3. In considering concessions or other obligations to suspend:

- (a) the complaining Party should first seek to suspend concessions or other obligations in the same sector or sectors that affected by the measure that the panel has found to be inconsistent with the obligations derived of this Agreement; and
- (b) if the complaining Party considers that it is not practicable or effective to suspend concessions or other obligations in the same sector or sectors, it may suspend concession or other obligations in other sectors.

4. The level of suspension of concessions or other obligations shall be equivalent to the level of the nullification or impairment.

5. If the Party complained against considers that the level of suspension of concessions or other obligations is not equivalent to the nullification or impairment, it may request in writing to the original panel. On the written request of the Party complained against, the original panel shall determine whether the level of concessions or other obligations to be suspended by the complaining Party is excessive pursuant to paragraph 4. If the panel cannot be established with its original panelists, the proceeding set out in Article 20.6 shall be applied.

6. The panel shall present its determination within 60 days after the date of receipt of the request, or if the panel cannot be established with its original panelists, from the date on which the last panelist is appointed.

7. The complaining Party may not suspend the application of concessions or other obligations before the issuance of the panel's determination pursuant to this Article.

Article 20.16: Post Suspension

1. Without prejudice to the procedure in Article 20.15, if the Party complained against considers that it has eliminated the non-conformity that the panel has found, it may provide a written notice to the complaining Party with description of how non-conformity has been removed. If the complaining Party disagrees, it may refer the matter to the original panel within 60 days after receipt of such written notice. Otherwise, the complaining Party shall promptly stop the suspension of concessions or other obligations.

2. The panel shall issue its report within 60 days after the referral of the matter.

3. If the panel determines that the Party complained against has eliminated the non-conformity, the complaining Party shall promptly stop the suspension of concessions or other obligations.

Article 20.17: Private Rights

Neither Party may provide for a right of action under its domestic law against the other Party on the ground that a measure of the other Party is inconsistent with this Agreement.
